

Marsh Orchid Cultivation Notes

Marsh orchids thrive in waterlogged peat.

Keep the crown above the waterline.

Feed a dilute tonic at first bloom.

Shield the bed from hard overnight frost.

Divide the rhizomes every third spring.

Label each division by its bloom colour.

Solar Array Maintenance Notes

Wipe the panel glass with a soft cloth.

Inspect mounting bolts for corrosion.

Log the midday output current daily.

Reseat any brittle connector insulation.

Check the inverter fuse below eighty percent.

Record the firmware after each update.
